**HAZARDS AFFECTING COASTAL WATERS**

Under the influence of Tropical Depression "DANTE", moderate to rough seas (1.2 to 3.0 m) will be experienced over the northern seaboard of Northern Luzon. Mariners of small seacrafts are advised to take precautionary measures when venturing out to sea. Inexperienced mariners should avoid navigating in these conditions.

**TRACK AND INTENSITY OUTLOOK**

- "DANTE" left the northern boundary of the PAR at 9:30 AM today. This tropical depression will continue moving generally northeastward in the next 12 hours heading towards Ryukyu Islands and will turn east northeastward tomorrow morning.
- "DANTE" is forecast to transition into an extratropical cyclone within the next 12 to 24 hours as it interacts with the baroclinic zone of Mei-yu Front over the East China Sea.

With these developments and unless re-entry occurs, this is the final bulletin for this tropical cyclone.
